How You Can Help

Reduce Your Plastic Use

Swap out single-use plastics for reusable options. Many marine mammals are hurt and become entangled by plastic trash.

Reduce Your Climate Impact

Skipping one meat dish each week is like driving 1,200 miles less a year. Choosing vegetarian meals helps reduce your environmental impact.

View Wildlife Safely

Keep Your Distance

Give wildlife at least 150 feet of space. Never approach or pour water on animals. Keep your dog leashed.

Use Your Zoom

If an animal is looking at you or reacting, you're too close.
